RANDONNEUR

Meet the Rodriguez Rainier!

This is the bike that the rest of the bike industry forgot about! A road bike that has lots of clearance for fenders, wide tires, fittings for a rear rack, and a triple crank set. "Why would anyone want fenders, wider tires, a rack, and a triple crank?" asks the bike designers for the other companies. Well, it just so happens that our customers want to ride their bikes no matter what mother nature throws at them, or what hills or mountains they encounter. They got tired of bikes that whimpered at the thought of a little rain and started cutting, and customizing fenders (all be it pretty crudely) to fit their race bikes. They didn't want the weight of a full touring bike, they wanted a race bike, but fenders, durable tires, more gearing options, and a rear rack are a must for the weekend tourist or daily commuter....at least in Seattle.

Rodriguez Bicycles to the rescue!

Inspired by a rainy RAMROD (Ride around Mt. Rainier in One Day) Scott designed the Rainier in 2007 as a new model. It quickly became our number one seller. Oh sure, we still make 'non-fender' race bikes, don't get me wrong. But with the rise of commuting and Randonneur cycling, the Rainier has really hit its stride here in the Northwest. No more sawing your fenders to pieces, trying to duct tape the jagged bits onto your bike and calling them "race fenders". Just get a Rodriguez Rainier, put on a real set of full fenders and laugh at your buddies while they eat the muddy spray off of their own front wheel. Just ask some of our customers what they think of their Rodriguez Rainiers! Find out why Rodriguez bicycles are the best value in the industry!

Quick facts:

Don't let the fenders fool you! The Rodriguez Rainier is just as light and fast as any road bike on the market today. Of course the Rainier is American made from True Temper or Reynolds butted tubing. This provides the classic light weight 'steel feel' the Rodriguez road bikes are famous for. We offer a selection of Campagnolo or Shimano equipment, all with a triple (or double) crank set, and handbuilt wheels with a 3-year warranty . It's a comfortable, versatile bike that is perfect for a full day's ride and our fit is guaranteed.

COMPLETE BIKE STARTING AN \$2,099

Have a drink on us!

The Rodriguez bottle opener is an exclusive, touch of class that you'll only find on a Rodriguez. This stainless steel accessory comes standard on your Rodriguez Randonneur or Touring bike. It is brazed onto the seat stay, waiting until you have to use it.
