

MakeShift

From \$3,499

There's a reason that Rodriguez is the number 1 Rohloff builder in the United States. It's because we know Rohloff customers don't want to compromise on comfort, features, or quality. We build your bike the way you want it. Whether it's a 650b gravel bike with disc brakes, a loaded touring bike, or a daily commuter, we've built it with Rohloff (or Alfine).

- Choose your wheels (26", 650b or 700c)
- Most experienced U.S. Rohloff builder
- Hand crafted in Seattle for your unique needs
- Wide gearing range and Rohloff reliability!
- No compromise on comfort - It's just your size!
- Models for everyone - road or gravel
- Your bike, your way, at a great value!

At Rodriguez Bicycles, we know Rohloff and IGH equipped bikes. We've built hundreds of them at this point. Over the last several years, our MakeShift line of custom bicycles has become a standard of sorts in the industry, and one of our better selling models.
